15 Description of Equipment or Protective System

A Nevis Bulkhead Luminaire comprises an oval body and cover manufactured from aluminium, brass or gunmetal. The cover is fitted with a wellglass sealed in place by a silicone cement. The body has an integral increased safety terminal box. The flameproof enclosure may be fitted with various lamps, lamp holders, and associated control gear. The flameproof enclosure wall may be fitted with up to 2 line bushings which provide interconnection to the increased safety terminal chamber.

The luminaire may be fitted with various lamps as detailed below.

Internal and external earth facilities are provided.

The lamp types, electrical ratings, temperature classifications, operating temperatures and ambient temperatures when fitted with each lamp type are detailed below.

The enclosure is fitted with a delay before opening label, this label may be replaced with a label advising Do not open when an explosive atmosphere is present.
